DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with David M. Hill on January 21, 2005. The application has been amended as follows:

Claim 60, line 1, "claim 60" has been changed to --claim 59--.

Claim 61, line 1, "claim 60" has been changed to --claim 59--.

Claim 62, line 1, "claim 60" has been changed to --claim 59--.

Allowable Subject Matter

Claims 18-62 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

As claimed invention was read in light of the specification, the prior art of record fails to disclose a method for analyzing sample ions comprising the steps of introducing the ions into a first ion trap and trapping the selected ions within a second ion trap for a predetermined time. The closest prior art, Chernushevich et al. (6,507,019) depicts in Fig. 1 a linear arrangement for mass spectrometry with an analytical multipole (Q1) and an ion trap (Q2) which is equivalent to the claimed second ion trap, but there is no first ion trap like claimed. Instead, (Q0), which is in the same location as the first ion trap is claimed to be, is merely a first collimating quadrupole and

Art Unit: 2881

there is no trapping or holding of any kind in this collimating region. Therefore, the addition of another ion trap is non-obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
